

LGC SAFETY BRIEFING

MAY 2013

TARGET PLACEMENT

- The bottom of the target needs to be above the visible line formed marking the end of the grass and the beginning of the sand area at the base of the backstop when viewed from the planned shooting position.
- If the bottom of the target is above that line from the planned shooting position, even a low hit on the target will impact the backstop.

TARGET PLACEMENT

- MUZZLE AND TARGETS ARE ~5 FEET HIGH AT CENTER
